Softdocs SC, LLC (Softdocs) Accessibility Conformance Report (ACR)

International Edition

(Based on VPAT® Version 2.5 Rev. April 2025)

Name of Product/Version: Etrieve Platform

Report Date: 05/2026

Product Description: The Softdocs Platform is a modern, cloud-native solution that helps organizations eliminate paper, automate processes, and securely manage information across the enterprise. Built specifically for education and the public sector, the platform unifies document management, workflow automation, electronic forms, eSignatures, and integrations into a single, cohesive system designed to scale with organizational needs.

Contact Information: Terri McKinney, Director of Operations and Compliance Officer | tmckinney@softdocs.com | Mobile (803) 602-2574

Evaluation Methods Used: Softdocs' accessibility testing methodology encompasses comprehensive manual evaluations utilizing a range of assistive technologies (AT), including screen readers. In addition, we conduct non-AT manual assessments such as keyboard-only navigation and color contrast verification. To ensure alignment with WCAG 2.2 AA guidelines, we leverage specialized accessibility tools, including Accessibility Insights, Lighthouse, and NVDA (screen reader).

“Voluntary Product Accessibility Template” and “VPAT” are registered service marks of the Information Technology Industry Council (ITI)
